EXPERIENCE

Zorus Inc., Newtown, CT— Software Engineer

May 2017 - August 2017

Worked as one of three Software Engineers building a customer portal and corresponding “node” from the ground up. Worked in PHP using slim, Javascript, and the overarching LEMP stack.

EDUCATION

Rochester Institute of Technology, Rochester, NY— Software Engineering

August 2016 - Present (Expected Class of 2021)

Current 2nd Year enrolled in the Software Engineering program.

PROJECTS

wasp — Command line Utility

A command line utility for generating and managing web configuration files. Including the manifest.json, bower.json, package.json and composer.json. Built in python, and packaged for linux.

Calendar Maker — PHP Web App

A calendar generator built for the high school I attended. A php web app that generated a csv file for import into google calendar by students and faculty. I still build and maintain it.

Coralite Woodworks LLC. — Company Website

Created a company website for my family's company using Flask and SQLAlchemy and designed for optimal search engine performance.

Equipment System — Java Project

Created a Java program used to track equipment leaving and returning to a school organization.
